WORCESTER ONCOLOGIST VIJAY KASTURI JOINS COMMONWEALTH HEMATOLOGY ONCOLOGY

WORCESTER – Vijay Kasturi, M.D., a Worcester resident, has joined the Worcester and Leominster offices of Commonwealth Hematology Oncology P.C. (CHO) as an oncologist-hematologist. Dr. Kasturi joins the practice of Dr. David Shepro and Dr. Susan Donohue in Worcester, and he’ll be working in Leominster with Dr. Shepro. His hospital appointments include UMass Memorial Medical Center and Saint Vincent Hospital in Worcester, and HealthAlliance Hospital in Leominster.

CHO is the largest private practice cancer care network in New England, with offices and hospital affiliations in eastern Massachusetts and southern New Hampshire.

“Dr. Kasturi is a terrific addition to CHO as he shares our philosophy of providing state-of-the-art-care in a compassionate way,” said Dr. Shepro.

Dr. Kasturi is board-certified in Medical Oncology and Internal Medicine. He received an M.D. from Rush Medical College in Chicago and a B.S. from the University of Illinois in Chicago. Prior to joining Commonwealth Hematology-Oncology, Dr. Kasturi was a Clinical Fellow in Medical Oncology and Hematology at the National Cancer Institute in Bethesda, MD. He was a resident and intern in medicine at Rush Presbyterian St. Luke’s Medical Center in Chicago, IL. He has also served on staff at Dartmouth Hitchcock Clinic, Keene, NH, and at Hematology/Oncology Associates of Illinois in Chicago.

Dr. Kasturi is an Assistant Professor of Medicine at the University of Massachusetts and an Adjunct Instructor in Medicine at Dartmouth Hitchcock Clinic. He is a member of the American Society of Clinical Oncology.

Commonwealth Hematology-Oncology, the largest community-based private cancer care group in New England, has offices and clinical sites throughout Massachusetts and southern New Hampshire. CHO is known for its leadership in community-based cancer care. It was the first group practice in the state to develop treatment guidelines for specific cancers and the first group practice in the area to develop a computerized software program for chemotherapy ordering.
